18 ANOS DE BACKGROUND EM TI

Professor
Startup
Analista de TI

ipsillon®

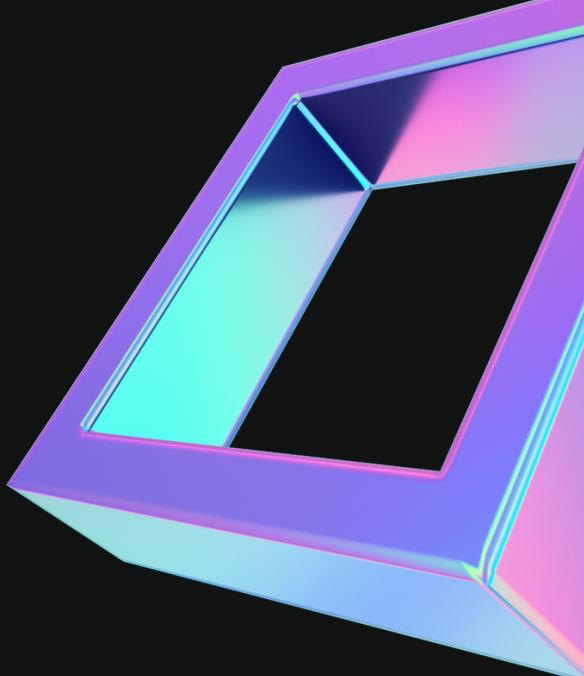

The logo for ipsillon features the brand name in a large, bold, dark gray sans-serif font, with a registered trademark symbol (®) at the end. To the left of the text, there is a 3D rendering of a cone with a gradient surface, transitioning from blue at the top to pink and purple at the bottom.

A photograph of a construction site. A large metal cage-like structure is being hoisted by a crane. Two workers wearing orange hard hats are visible inside the structure. The background shows a clear blue sky and some vertical rebar or scaffolding.

O que é um projeto?

PMI

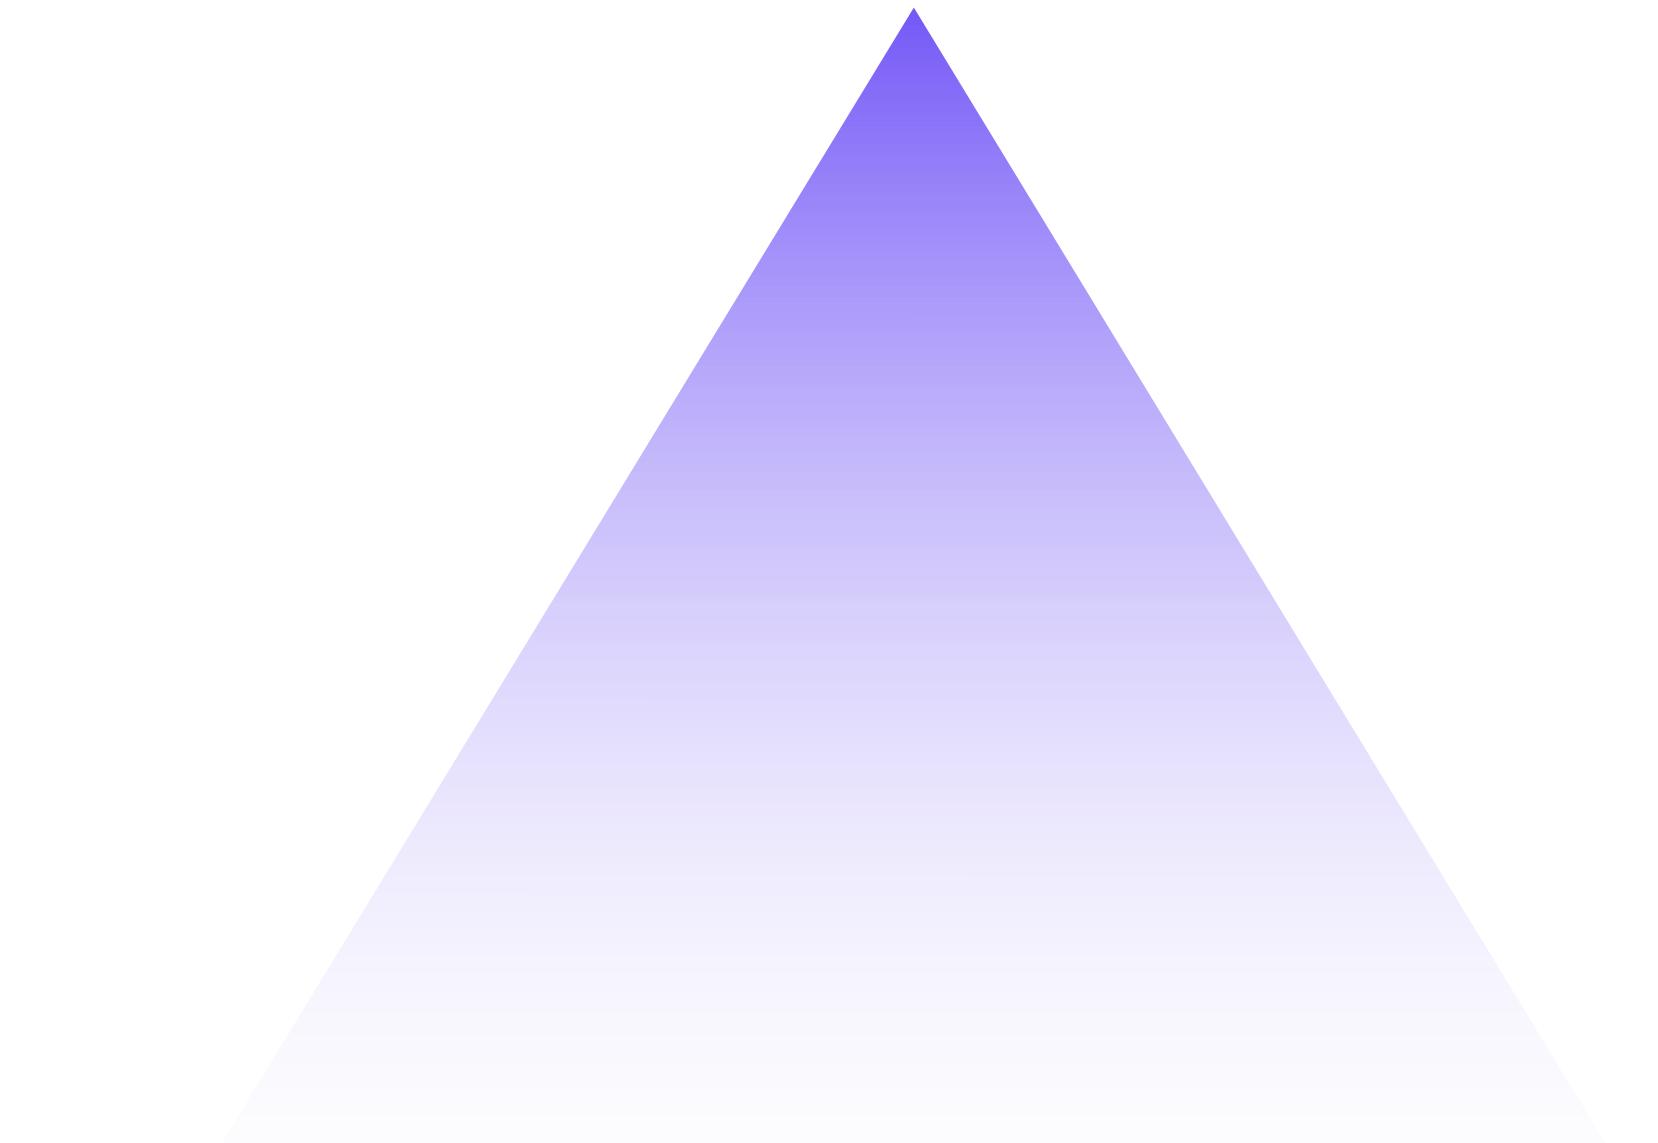

Projeto é um esforço temporário empreendido para criar um produto, serviço ou resultado exclusivo. Por ser temporário, devemos elaborar um projeto para ter seu início e término.

Manifesto Ágil

MANIFESTO ÁGIL - 4 VALORES

01

INDIVÍDUOS E
INTERAÇÕES

mais que processos e
ferramentas

02

SOFTWARE EM
FUNCIONAMENTO

mais que documentação
abrangente

03

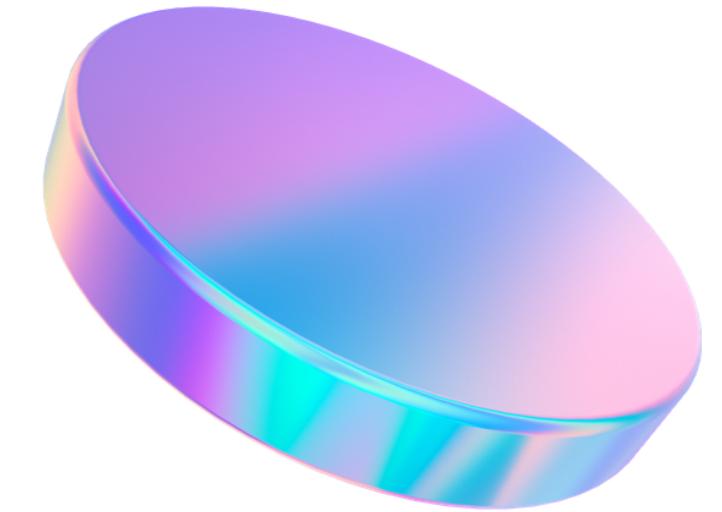

COLABORAÇÃO COM
O CLIENTE

mais que negociação de
contratos

04

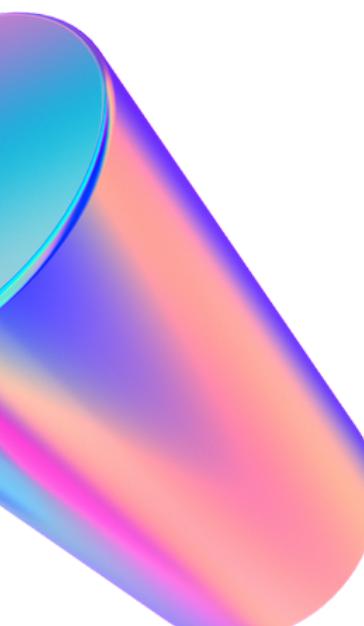

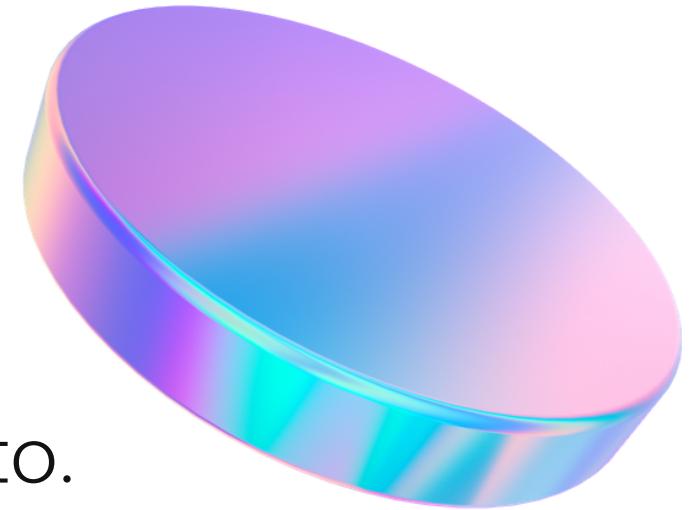

RESPONDER A
MUDANÇAS

mais que seguir um plano

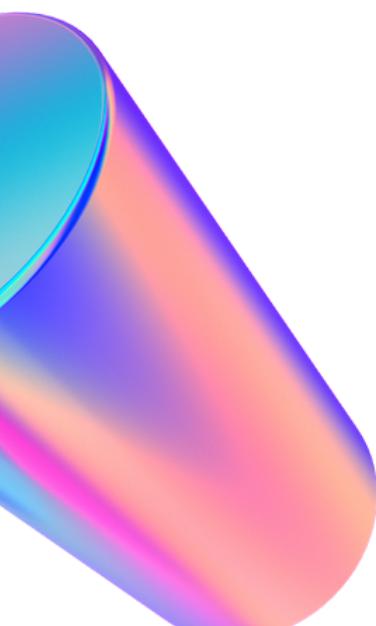

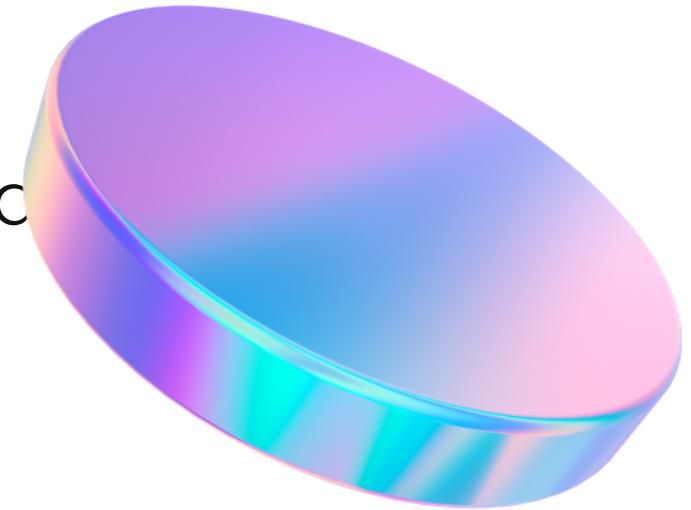

MANIFESTO ÁGIL - 12 PRINCÍPIOS

- Nossa maior prioridade é satisfazer o cliente, através da entrega adiantada e contínua de software de valor.
- Aceitar mudanças de requisitos, mesmo no fim do desenvolvimento.
- Processos ágeis se adequam a mudanças, para que o cliente possa tirar vantagens competitivas.
- Entregar software funcionando com freqüencia, na escala de semanas até meses, com preferência aos períodos mais curtos.e processos e ferramentas

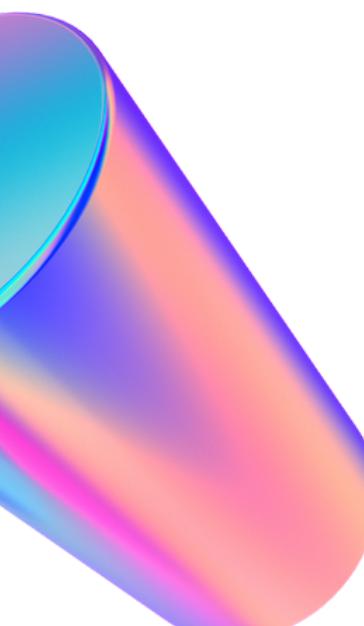

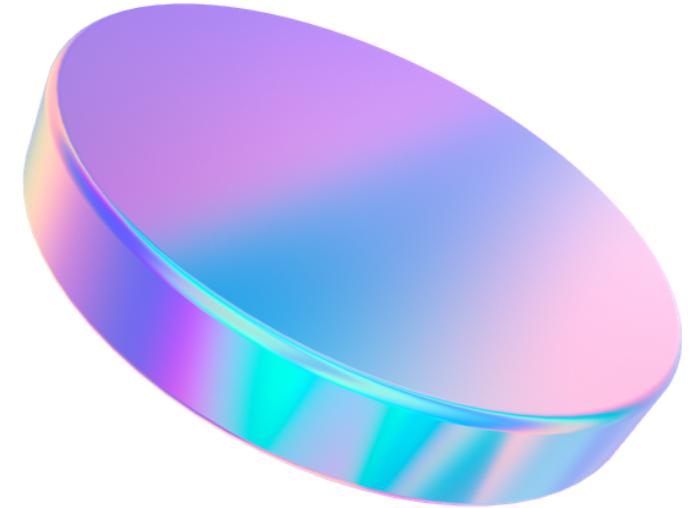

MANIFESTO ÁGIL - 12 PRINCÍPIOS

- Pessoas relacionadas à negócios e desenvolvedores devem trabalhar em conjunto e diariamente, durante todo o curso do projeto.
- Construir projetos ao redor de indivíduos motivados. Dando a eles o ambiente e suporte necessário, e confiar que farão seu trabalho.
- O Método mais eficiente e eficaz de transmitir informações para, e por dentro de um time de desenvolvimento, é através de uma conversa cara a cara.

MANIFESTO ÁGIL - 12 PRINCÍPIOS

- Simplicidade: a arte de maximizar a quantidade de trabalho que não precisou ser feito.
- As melhores arquiteturas, requisitos e designs emergem de times auto-organizáveis.
- Em intervalos regulares, o time reflete em como ficar mais efetivo, então, se ajustam e otimizam seu comportamento de acordo.
